

Jemberu Gule

Computer Science

Objective

I'm a results-driven Software Developer specializing in the MERN stack, with experience in building dynamic and scalable web applications. Proficient in modern JavaScript frameworks and backend development, I am committed to delivering efficient, maintainable, and user-centric software solutions.

Experience

- Software Development Experience (University Projects)
- 2024 – Present
- Participated in the design and development of web-based applications as part of academic projects
- Contributed to both frontend and backend development using the MERN stack
- Assisted in debugging, testing, and improving application performance
- Worked in a team environment, applying basic software engineering principles

Education

2022 – 2026

Bachelor of Science in Computer Science

Haramaya University

Relevant Coursework: Data Structures, Algorithms, Database Systems, Web Development
Projects: MERN Stack Web Applications
